BLIZZARD SAFETY

If Indoors

- Stay calm and wait for instructions from the Emergency Coordinator or the designated official.
- Stay indoors.
- If there is no heat:
 - Ask for pre-fab logs for your fireplace.
 - Close off unneeded rooms or areas.
 - Stuff towels or rags in cracks under doors.
 - Cover windows at night.
- Eating food provides the body with energy and heat, and drinking fluids prevent dehydration.
- Wear layers of loose-fitting lightweight, warm clothing, if available.

If Outdoors

- Find a dry shelter and cover all exposed parts of the body.
- If a shelter is not available, prepare a lean-to, windbreak or snow cave for protection from the wind.
- Build a fire for heat and to attract attention. Place rocks around the fire to absorb and reflect heat.
- Do not eat snow. It will lower your body temperature. Melt it first.
